

## REMARKS

Claims 1-6, 9-11 and 13-15 were pending and presented for examination in this application. In an Office Action dated August 30, 2006, claims 1-6, 9-11 and 13-15 were rejected. With this amendment, claims 1, 5, 6, 9-10, and 13-14 are amended and claims 3, 12, and 15 are cancelled. On the basis of the following remarks, consideration of this application and allowance of all pending claims are requested.

Applicant's representative conducted an interview with Examiner Philip Gabler on November 30, 2006, the relevant portions of which are summarized herein in accordance with MPEP §713.04. The Office Action and pending claims were discussed. During the discussion, Examiner indicated, and Applicant's representative agreed, that the references of record do not disclose protrusions on a chassis frame adapted to (1) laterally secure a removable structure to a chassis frame "in at least two directions", and (2) be coupled with portions of the removable structure to be "secured over" the protrusions. Accordingly, these elements have been added to the pending independent claims, thereby placing these claims, and the remaining claims which depend from it, in a condition for allowance.

On the basis of the above amendments, consideration of this application and the early allowance of all claims herein are requested. If the Examiner believes that direct contact with the Applicant's attorney will advance the prosecution of this case, the Examiner is encouraged to contact the undersigned as indicated below.

Respectfully submitted,  
STAN CHENG
